## Outpatient Hospital Services Methods and Standards for Establishing Payment Rates

Payments to general and special hospitals for outpatient hospital services are based on the reimbursement methodologies for comparable services rendered by non-hospital providers.

Effective January 1, 2021 and thereafter, cardiac catheterization reimbursement rates are set at 80% of non-rural Medicare rates as set on January 1 of each year.

Effective April 1, 2021 and thereafter, Outpatient therapeutic phlebotomy reimbursement rates are set at 85% of non-rural Medicare rates. These rates will also change on January 1 of each year following this date as the non-rural Medicare rates change.

Effective January 1, 2022, additional varicose vein treatment modalities reimbursement rates have been added to the plan.

Except as otherwise noted in the plan, state developed fee schedule rates are the same for both governmental and private providers for the above services. The agency's fee schedule rate was set as of August 1, 2024 and is effective for services provided on or after that date. The agency's established fee schedule rates are published on the agency's website at <https://www.kmap-state-ks.us/Provider/PRICING/RefCode.asp>
